NOTES:

*Both Kora's tend to feed back around 180-200. Please set a wide Notch from 180-200.

*If possible, Austin (Drums) and Will (percussion) would like to have access to digital board to adjust their In-Ear levels of vocals and instrumentation if need during the performance.

*Austin & Will share one Sennheiser EW G4 wireless transmitter. Austin takes Channel "A", and Will takes Channel "B" out of transmitter.
